

AURUM HEAVEN – QUESTIONS & ANSWERS (Q&A)

This document answers the most important questions about the Aurum Heaven Community – explained simply for interested parties and new members.

Question

Answer

What is the Aurum Heaven Community?

Aurum Heaven is an international value-based community that protects wealth through gold. Members benefit from security, stability, and a gold-backed economy.

Why does Aurum Heaven rely on gold?

For thousands of years, gold has been the world's most secure form of payment. It protects against inflation, currency risks, and economic uncertainty.

How does membership work?

Members store their physical gold with audited partners such as Rotbart & Co. (Hong Kong) or BullionStar (Singapore). The gold remains the property of the member and is kept in insured custody.

What is the Aurum Coin?

The Aurum Coin is a digital currency that is 100% backed by physical gold. It enables secure trading within the community and on the Aurum Marketplace.

What benefits do I have as a member?

Members benefit from value stability, free storage, bonus gold upon joining, and access to exclusive trading and investment opportunities within the community.

What is the Unconditional Basic Income (UBI)?	Every member receives a regular basic income or a pension in physical gold. This creates financial security and freedom.
How secure is my gold?	Aurum Heaven works exclusively with renowned high-security vaults. Every deposit is fully insured and audited regularly.
Where is my gold located?	The gold is stored in independent vaults in stable jurisdictions such as Switzerland, Hong Kong, and Singapore.
What does membership cost?	Storage is free of charge for members. A minimum deposit of 25,000 CHF is required.
What additional benefits are there?	Depending on the contract term, members receive up to a 15% bonus in physical gold. Seniors aged 65 and over receive an additional 5%, and those aged 75 and over receive 10%.
